

AREA TECHNICAL INSTITUTE

Jennifer Hain, Administrative Director

World Class • Quality Driven

December 21, 2021

Dear SUN Tech Families,

The SUN Tech Team is wishing you and your family a safe, healthy, and happy holiday season. We have appreciated your support and patience during this challenging year and look forward to a great finish in 2022.

The Joint Operating Committee met on December 16th to approve updates to our Health and Safety Plan. The revised Health and Safety Plan will be posted on the website on Wednesday, December 22nd.

What goes into effect on January 4th, 2022, is as follows:

Masking continues to be optional but is still recommend for students, staff, faculty, and visitors.

- Parents will be able to choose a course of action for students identified as a close contact while at SUN Tech.
- For students experiencing symptoms while in school, SUN Tech will be implementing a voluntary COVID testing program.
- Administration maintains to ability to force a quarantine on whole programs or building wide.
- Our plan will be reviewed again at our next regular JOC meeting on February 17th at 6:30 pm

Our goal is to meet the physical, mental, and social needs of all individuals on our campus. We continue to support the recommendations provided by the Department of Health and Center for Disease Control but recognize individuals all have different needs. We ask the everyone continue to be vigilant in health and safety procedures and respect the needs of others. If your student is sick, we are asking you act responsively, keep your student home and contact the office for guidance.

In advance, I appreciate everyone's cooperation and understanding as we have all experienced frustration over the course of the pandemic.

Sincerely,

Jennifer Hain
