## CARPENTRY

Students in the Carpenter Camp will learn basic hand tool and power tool safety and to read a basic blueprint. Students will be exposed to the various aspects of the building trades like framing, drywalling, masonry, plumbing and heating through tours of the facility and hands on activities. Students will spend the majority of their time in the carpentry camp building a work bench that they will take home at the end of camp.

## COLLISION REPAIR

By enrolling in the Collision Repair Career camp you will build a model sized, metal car! You will learn the skills necessary to perfect a vehicle with paint, body filler and pin stripping! You may then take your model car home with you to showcase your creativity to your family.

## COSMETOLOGY

The Cosmetology Summer Camp will introduce students to the Beauty Industry. They will learn about the Careers available in the industry. Students will engage in basic skills like manicures, hair care & skin care.

## CRIMINAL JUSTICE

This camp will teach leadership and entry level skills needed in the criminal justice occupations. Students will explore career opportunities and build self-esteem through communication activities, workplace readiness skills, and a variety of fun activities. You will also engage in STEM (science, technology, engineering, and math) activities, listen to guest speakers, and take a field trip to a local fire station, police station, and emergency response facility.

## CULINARY ARTS

Students in the Culinary Arts Camp will learn basic measurement, safety and sanitation, recipe reading, and culinary and baking skills. Students will be exposed to different aspects of the kitchen work experience by creating different foods that they will be able to sample themselves and also take home to share with their families.

## HVAC & PLUMBING

The HVAC summer camp will introduce students to hand tool and power tool safety. Some of the training will include CPVC solvent welding, soldering copper tube and steel pipe and basic plumbing math. Basic use of electrical equipment, electrical wiring diagrams and basic trouble shooting techniques used in the HVAC industry. Basic information used for heat gain and heat loss calculation.

### CLASS SIZE LIMITED

**Sign up today for one of these exciting Camps!!**

## MASONRY

Students in the Masonry Camp will learn basic hand and power tool safety as well as tool identification. Students will be exposed to the various aspects of the Masonry trade like block laying, brick laying, tile setting, stone setting, and concrete work. Students will spend time working on their own tile mosaic and pouring their own concrete project that they may take home with them. While in the Masonry Camp students will also focus on teamwork and responsibility.

## WELDING

By enrolling in the Welding Summer Camp you can learn the skills needed to succeed in this challenging field. Tools, books, supplies and protective gear are provided for your use while enrolled in the class. Welding Training will include: Safety, Safety, and more Safety!!! The GMAW process. Basic math concepts for welders. Welding techniques on various joints in all positions using ferrous metals. Basic welding information including common arc welding process descriptions. Students will learn how to design custom parts and cut them out using a CNC Plasma Cutter. All students will be taking their own specially designed project home on the last day.

## WOODWORKING

Woodworking is one of the earliest skills mankind developed. In this Woodworking Camp students will gain an understanding of how to shape and manipulate wood. Students will have the opportunity to work with a variety of woodworking tools from basic hand tools to our high-tech computerized woodworking tools (CNC machines). Students will gain confidence and be able to learn a variety of woodworking skills while building a project.
